SECTION 1. IDENTIFICATION

Product name: PURETOL™/MC 8
Product code: PTL8DRX, PTL8

Manufacturer or supplier’s details
Petro-Canada America Lubricants LLC
115N Oak Park Avenue #1C
Oak Park IL 60301-1366
United States

Emergency telephone number
Emergency telephone number: Petro-Canada Lubricants Inc.: +1 905-403-5770;
CHEMTREC Transport Emergency: 1-800-424-9300;
Poison Control Centre: Consult local telephone directory for emergency number(s).

Recommended use of the chemical and restrictions on use
Recommended use: This material is an NF grade white oil which is used for a variety of applications such as blending food grade lubricants and in the production of cosmetics and pharmaceuticals.

Prepared by: Product Safety: +1 905-491-0565

SECTION 2. HAZARDS IDENTIFICATION

Emergency Overview

<table>
<thead>
<tr>
<th>Appearance</th>
<th>liquid</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colour</td>
<td>Clear and bright</td>
</tr>
<tr>
<td>Odour</td>
<td>No odour or slight petroleum oil like.</td>
</tr>
</tbody>
</table>

GHS classification in accordance with 29 CFR 1910.1200
Aspiration hazard: Category 1

GHS label elements
Hazard pictograms: ☢️

Signal word: Danger

Hazard statements: May be fatal if swallowed and enters airways.

Precautionary statements: Response:
IF SWALLOWED: Immediately call a POISON CENTER/doctor.
Do NOT induce vomiting.
Storage: Store locked up.
Disposal:
Dispose of contents/container to an approved waste disposal plant.

Potential Health Effects
Primary Routes of Entry
- Eye contact
- Ingestion
- Inhalation
- Skin contact

Aggravated Medical Condition
None known.

Other hazards
None known.

IARC
No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

OSHA
No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

NTP
No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture: Mixture

Components

</tbody>
</table>

SECTION 4. FIRST AID MEASURES

If inhaled:
Move to fresh air.
Artificial respiration and/or oxygen may be necessary.
Seek medical advice.

In case of skin contact:
In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes.
Wash skin thoroughly with soap and water or use recognized skin cleanser.
Wash clothing before reuse.
Seek medical advice.

In case of eye contact:
Remove contact lenses.
Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.
Obtain medical attention.

If swallowed:
- Rinse mouth with water.
- DO NOT induce vomiting unless directed to do so by a physician or poison control center.
- Never give anything by mouth to an unconscious person.
- Seek medical advice.

Most important symptoms and effects, both acute and delayed:
- First aider needs to protect himself.

SECTION 5. FIREFIGHTING MEASURES

- Suitable extinguishing media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
- Unsuitable extinguishing media: No information available.
- Specific hazards during firefighting: Cool closed containers exposed to fire with water spray.
- Hazardous combustion products: Carbon oxides (CO, CO2), smoke and irritating vapours as products of incomplete combustion.
- Further information: Prevent fire extinguishing water from contaminating surface water or the ground water system.

SECTION 6. ACCIDENTAL RELEASE MEASURES

- Personal precautions, protective equipment and emergency procedures:
  - Use personal protective equipment.
  - Avoid breathing dust.
  - Ensure adequate ventilation.
  - Evacuate personnel to safe areas.
  - Use the indicated respiratory protection if the occupational exposure limit is exceeded and/or in case of product release (dust).
  - Material can create slippery conditions.
  - Mark the contaminated area with signs and prevent access to unauthorized personnel.
  - Only qualified personnel equipped with suitable protective equipment may intervene.
- Environmental precautions: Do not allow uncontrolled discharge of product into the environment.
- Methods and materials for containment and cleaning up: Clean up promptly by sweeping or vacuum.

SECTION 7. HANDLING AND STORAGE

- Advice on protection against fire and explosion: None known.
Advice on safe handling: For personal protection see section 8. Smoking, eating and drinking should be prohibited in the application area. Do not ingest. Avoid contact with skin, eyes and clothing. Do not puncture. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use. Avoid breathing gas. Use only with adequate ventilation.

Conditions for safe storage: Store in original container. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep in a dry, cool and well-ventilated place. Keep in properly labelled containers. To maintain product quality, do not store in heat or direct sunlight.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

<table>

</tbody>
</table>

Engineering measures: No special ventilation requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

Personal protective equipment

Respiratory protection: Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Filter type: organic vapour filter

Hand protection Material: neoprene, nitrile, polyvinyl alcohol (PVA), Viton(R).

Remarks: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Eye protection: Wear face-shield and protective suit for abnormal processing problems.

Skin and body protection: Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place.

Protective measures: Wash contaminated clothing before re-use.

Hygiene measures: Remove and wash contaminated clothing and gloves, including the inside, before re-use. Wash face, hands and any exposed skin thoroughly after handling.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: liquid

Colour: Clear and bright

Odour: No odour or slight petroleum oil like.

Odour Threshold: No data available

pH: No data available

Pour point: -27 °C (-17 °F)

Boiling point/boiling range: No data available

Flash point: 192 °C (378 °F)
  Method: Cleveland open cup

Fire Point: No data available

Evaporation rate: No data available

Auto-ignition temperature: No data available

Upper explosion limit / Upper flammability limit: No data available

Lower explosion limit / Lower flammability limit: No data available

Vapour pressure: No data available

Relative vapour density: No data available

Relative density: No data available

Density: 0.845 kg/l (15 °C / 59 °F)

Solubility(ies)
  Water solubility: insoluble
SECTION 10. STABILITY AND REACTIVITY

Possibility of hazardous reactions : Hazardous polymerisation does not occur. Stable under normal conditions.

Conditions to avoid : No data available

Incompatible materials : Reactive with oxidising agents.

Hazardous decomposition products : May release COx, smoke and irritating vapours when heated to decomposition.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Information on likely routes of exposure : Eye contact
Ingestion
Inhalation
Skin contact

Acute toxicity

Product:

Acute oral toxicity : Remarks: No data available

Acute inhalation toxicity : Assessment: The substance or mixture has no acute inhalation toxicity
Remarks: No data available

Acute dermal toxicity : Assessment: The substance or mixture has no acute dermal toxicity
Remarks: No data available

Components:

White mineral oil (petroleum):

Acute oral toxicity : LD50 (Rat): > 5,000 mg/kg.

Acute inhalation toxicity : LC50 (Rat): > 5.2 mg/l
Exposure time: 4 h
Test atmosphere: dust/mist

Acute dermal toxicity : LD50 (Rabbit): > 2,000 mg/kg.
Skin corrosion/irritation

**Product:**
Remarks : No data available

Serious eye damage/eye irritation

**Product:**
Remarks : No data available

Respiratory or skin sensitisation
No data available

Germ cell mutagenicity
No data available

Carcinogenicity
No data available

Reproductive toxicity
No data available

**STOT - single exposure**
No data available

**STOT - repeated exposure**
No data available

SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity

**Product:**
Toxicity to fish : Remarks: No data available
Toxicity to daphnia and other aquatic invertebrates : Remarks: No data available
Toxicity to algae : Remarks: No data available
Toxicity to microorganisms : Remarks: No data available

Persistence and degradability

**Product:**
Biodegradability : Remarks: No data available

Bioaccumulative potential
No data available
Mobility in soil
No data available

Other adverse effects
No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues: The product should not be allowed to enter drains, water courses or the soil. Offer surplus and non-recyclable solutions to a licensed disposal company. Waste must be classified and labelled prior to recycling or disposal. Send to a licensed waste management company. Dispose of product residue in accordance with the instructions of the person responsible for waste disposal.

SECTION 14. TRANSPORT INFORMATION

International Regulations
IATA-DGR
Not regulated as a dangerous good
IMDG-Code
Not regulated as a dangerous good

National Regulations
49 CFR
Not regulated as a dangerous good

SECTION 15. REGULATORY INFORMATION

California Prop. 65
This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

The components of this product are reported in the following inventories:
DSL: On the inventory, or in compliance with the inventory
TSCA: All chemical substances in this product are either listed on the TSCA Inventory or are in compliance with a TSCA Inventory exemption.
EINECS: On the inventory, or in compliance with the inventory
SECTION 16. OTHER INFORMATION

Further information

**NFPA 704:**

Flammability

Health

Instability

Special hazard.

**HMIS® IV:**

HEALTH

3

FLAMMABILITY

1

PHYSICAL HAZARD

0

HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. The "**" represents a chronic hazard, while the "/" represents the absence of a chronic hazard.
